

# 84" 2Touch Interactive Display

The new standard of interactive displays

The only 84" interactive screen on the market with 4K UHD resolution. Crystal clear visibility, exceptional smoothness, responsive touch interactivity and durable design: the 84" 2Touch Interactive Display takes touch screens to a brand new level!

Bundle it with Workgroup™ whiteboarding software and unleash the expressiveness of your audience.

“ Truly Plug&Play, the 84" 2Touch Interactive Display gives you full mouse control over your computer, via multi-touch. ”

#### Real 4K UHD on 84"

With a resolution of 3840 pixels × 2160 lines (8.3 megapixels, aspect ratio 16:9), 4K UHD has twice the horizontal and vertical resolution of the 1080p HDTV format, with four times as many pixels overall.

#### Multi-touch

With 4 touch points, there is room for anyone who wants to participate!  
Truly plug&play (no driver needed), all technology barriers have been removed.

#### Cutting edge technology

Anti-reflective tempered glass to prevent the blurring of images. Choice of detection method: Optical, Infrared. Combine it with Electromagnetic Resonance for best performance and versatility.

#### Flexible options

Mount your 2 Touch Interactive Display on a Balanced Box and adjust it up and down with a simple finger touch, or deploy it on a Flexiroller and move it from one room to another as needed.

## Mounting options

Fix your **84" 2Touch Interactive Display** on the wall using standard brackets, use a Balanced Box lifter for "one finger height adjustment", or deploy it on a Flexiroller to move it from one room to another as needed.

## All in one bundle

The **84" 2Touch Interactive Display** is available as a standard unit or can be bundled with our OPS PC to eliminate the need for an external computer. No more cables!

#### About 2Touch

**2Touch** is about ground-breaking audience engagement solutions: we want groups of people to achieve better.

We provide solutions that transform every interaction between an organisation and its audience from a static "back and forth" model into a real-time loop of spontaneous feedback, motivation and participation. The ultimate goal for our customers is to be able to engage, motivate, entertain and retain their audience. We are located in Australia and New-Zealand.
